

# MULTIGATE Cadence™ RTV

## Reliable tissue capture.

The Multigate Cadence™ Specimen Retrieval system delivers safe, reliable tissue capture.

Addressing surgeon concerns over bag strength and safe tissue capture we designed a specimen retrieval system that ensures simple, precise bag deployment and reliable, controlled retrieval of tissue.

### FEATURES

## Tissue capture.

Our Cadence™ Specimen Retrieval system is an ergonomically designed tool crafted to deliver one-handed, precise deployment and secure tissue retrieval.

Bag strength and a wider diameter, braided nylon retrieval cord ensures a simple safe bag retrieval.

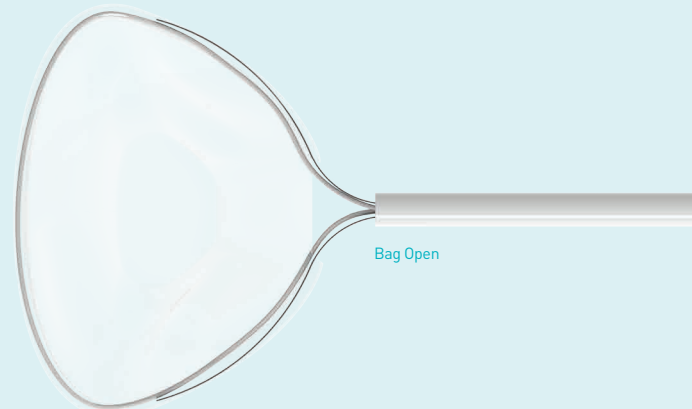

- ✓ Deployment precision
- ✓ One-handed deployment
- ✓ Retrieval bag strength
- ✓ Secure retrieval cord
- ✓ Ergonomic design

**One handed:**  
Ergonomic design ensures one-handed deployment even by the smallest of hands

**Comfort:**  
Retrieval cord is designed to be gentle on hands
